

LI 700[®] is a non-ionic penetrating surfactant that reduces off-target spray drift and lowers spray water pH. Unique formulation technology and quality ingredients separate LI 700 from the imitators.

WITH LECI-TECH TECHNOLOGY 

To the plant:
 Drift reduction with performance-sized droplets

On the plant:
 Droplet retention by adhesion and spreading

In the plant:
 Increased penetration without cuticle disruption

PRODUCT FEATURES

- Contains **LECI-TECH[®]**, a unique technology that assists overall spray performance
- Formulated for use as a surfactant, penetrant, acidifying agent and drift reducer

GROWER BENEFITS

- Acidification properties reduce spray solution pH, preventing pesticide degradation and maximizing performance
- Low-foaming surfactant that will not cause foam problems in the spray tank

RATES

1-4 pts/100 gal of spray solution for most applications
