

BLACK LABEL[®] Zn is a phosphate fertilizer built with C² Technology – to provide sound, efficient and immediately available phosphate based nutrition. C² Technology reacted with nutrition promotes extended nutrient uptake and supports a better soil environment.

FEATURES

- Powered by C² Technology to enhance total nutrient availability
- Contains highly available ortho phosphate
- Sound, efficient flexible zinc phosphate formulation

ANALYSIS

6-20-0 .77%Zn with C² Technology

GROWER BENEFITS

- Highly available phosphorous (P) and zinc (Zn) to drive early season development
- Enhanced cation exchange column (CEC) of application zone
- Designed to enhance total nutrient availability

RATES

Row Crops: Soil: 1-5 gal/A in-furrow or 2x2. Foliar: 2-8 qt/A per application; Specialty Crops: Soil: 1-5 gal/A in-furrow or 1-10 gal/A 2x2. Foliar: 2-8 qt/A per application

What is C² Technology?

C² is a proprietary technology consisting of extracted carbon and carbohydrate reacted with nutrients for improved soil health and plant performance.

Carbon: Increases nutrient availability by fostering growth of beneficial soil microbes and positively impacting soil attributes creating better holding capacity for nutrients and water

Carbohydrate: Improves nutrient uptake and availability in both soil and foliar applications.
