

**NUTRISYNC<sup>®</sup> M** (0-0-2) is a unique liquid foliar nutritional enhancement tool that supports the physiological activity and growth of monocot crops, such as corn, wheat, rice and other cereal grains. NUTRISYNC Nutrient Transport Technology helps plants more efficiently translocate and utilize nutrients within the plant, driving productivity throughout the season.

## FEATURES

- Built with NUTRISYNC Nutrient Transport Technology
- Optimized nutrient transport specifically for the needs of monocot crops
- Ultra-low use rates provide application flexibility

## RATES

5-10 fl oz/A for most crops and applications

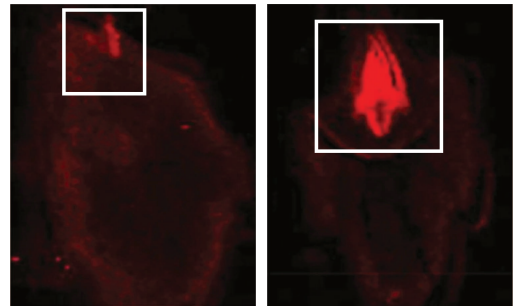

## ANALYSIS

0-0-2

## GROWER BENEFITS

- Enhances nutrient uptake and mobilization
- Greater nutrient utilization
- Promotes healthier plants, more consistent quality and higher yield potential

**Nutrisync<sup>®</sup> Products Performance**  
**Rice Kernel Nutrient Accumulation**
