

RADIATE is designed to drive root and shoot growth through a patented formulation of IBA & Kinetin, in optimized ratios, to enhance early season vigor and drive maximum plant performance. The proven technology in Radiate provides Growers consistent performance across a wide variety of crops.

FEATURES

- A patented combination of IBA and Kinetin in an optimized balance for root and shoot growth
- Flexible formulation is labeled for both in-furrow and foliar applications
- Compatible with most fertilizers and pesticides for upmost flexibility in tankmix partners

GROWER BENEFITS

- Promotes vigorous root and shoot growth in all crops
- Larger root system is able to access more soil for increased uptake of key nutrients and water
- Improves early season vigor and reduces the negative effects of stresses experienced during the growing season

ACTIVE INGREDIENTS

IBA (Indole-3 Butyric Acid) & Kinetin

RATES

Foliar Applied: 2 fl oz/A; Banded or In-furrow: 4 fl oz/A

RADIATE® Effect on Root Hairs

Untreated

Radiate®
