

# ReaX<sup>PLUS</sup> COPPER

**REAX PLUS™ COPPER** is a liquid copper (Cu) product designed for at-planting and drip, drench, and inline applications with foliar flexibility. Enhanced with unique C<sup>2</sup> soil health and plant performance technology and now fortified with Biocatalyst Technology. **ReaX Plus Copper** is designed to improve nutrient availability to meet the yield and quality goals of growers in a variety of growing conditions year after year.

## PRODUCT FEATURES

- Copper reacted with C<sup>2</sup> Technology to maximize availability and uptake
- Carbon-based Biocatalyst Technology improves nutrient uptake and crop tolerance to abiotic stress
- Promotes healthy growth through optimal nutrition and increased crop vigor
- Formulation designed for soil and foliar applications

## GROWER BENEFITS

- Enhances nutrient uptake and mobilization
- Greater copper utilization to support chlorophyll and seed production
- Promotes healthier plants, more consistent quality, and higher yield potential

## ANALYSIS

- 4-0-0 5% Cu with C<sup>2</sup> Technology

## RATES

- Soil: 1-4 qts/A
- Foliar: 0.5-2 qts/A
- Fertigation: 1-4 qts/A
- Transplant water: 1-4 qts/A (Do not exceed 2% solution to water)

## COPPER AT-A-GLANCE

- Critical in activating enzymes involved in lignin synthesis
- Required in photosynthesis and plant respiration
- Assists in plant metabolism of carbohydrates and proteins
- Helps improve flavor intensity and color in vegetables
