

ReaX^{PLUS} MICROBOOSTER

REAX PLUSTM MICROBOOSTER is a liquid blend of key micronutrients designed for at-planting, banded, or foliar applications with flexibility to use in transplant water. Built with C² Technology - ReaX Plus Microbooster addresses a variety of crop nutritional needs with a blend of nitrogen (N), sulfur (S), iron (Fe), manganese (Mn), and zinc (Zn) to meet the yield and quality goals in a variety of growing conditions.

PRODUCT FEATURES

- Unique C² formulation maximizes micronutrient availability and mobility in the soil for superior uptake
- Flexible formulation designed for many banded, broadcast, in-line, or in-furrow soil applications with foliar flexibility
- Formulated to provide season-long availability of existing fertility and applied nutrition

ANALYSIS

- 4-0-0 2.5% S, 1% Fe, 1% Mn, 3% Zn

MICROBOOSTER AT-A-GLANCE

- Iron and Manganese play a critical role in supporting photosynthesis
- Sulfur and zinc improve nitrogen assimilation
- Zinc balances phosphorus uptake and drives auxin production

GROWER BENEFITS

- Augments a balanced crop nutrient management program
- Plant-available sulfur formulated with key micronutrients to support vital plant processes

RATES

- Soil: 1-8 qts/A
- Foliar: 1-4 qts/A
- Fertigation: 1-8 qts/A
- Transplant water: 1-3 gal/A (Do Not exceed 3% solution to water)
