

ReaX^{PLUS} SELECT

REAX PLUS™ SELECT is a liquid blend of key micronutrients designed for at-planting and banded applications with foliar flexibility. Built with C² Technology - **ReaX Plus Select** addresses a variety of crop nutritional deficiencies with a blend of nitrogen (N), sulfur (S), boron (B), copper (Cu), iron (Fe), manganese (Mn), molybdenum (Mo), and zinc (Zn) to meet the yield and quality goals in a variety of growing conditions.

PRODUCT FEATURES

- Unique C² formulation maximizes micronutrient availability and mobility in the soil for superior uptake
- Flexible formulation designed for many banded, broadcast, in-line, or in-furrow soil applications with foliar flexibility
- Formulated to provide season-long availability of existing fertility and applied nutrition

ANALYSIS

- 4-0-0 2.0% S, 0.25% B, 0.5% Cu, 0.5% Fe, 1.5% Mn, 0.01% Mo, 1.5% Zn

SELECT AT-A-GLANCE

- Provides key nutrients to help maintain optimal levels or resolve deficiencies
- Feeds and supports soil microbiota for healthier, more biologically active soil
- Stabilizes nutrients prone to tie-up in the soil for reliable, available nutrition
- Improved crop tolerance to abiotic stress

GROWER BENEFITS

- Blend of eight micronutrients, including sulfur, boron, copper, iron, manganese, molybdenum, and zinc to fill many crop needs
- Unique technology complexes and neutralizes cation-charged nutrients, allowing for easier cuticle absorptions
- Complexing and stability agents for application optimization

RATES

- Soil: 1-8 qts/A
- Foliar: 1-8 qts/A
