

AWAKEN FLOWBOOST® 0-5-0 is a premier seed lubricity agent available from Loveland Products. It contains a unique blend of nutrients to optimize seed nutrient conditions for plant growth. Additionally, it provides top tier seed lubrication to achieve better seed singulation, as well as extremely low dust-off properties.

FEATURES

- The availability of molybdenum can improve nodulation and nitrogen efficiency
- Flexibility for use as a seed finisher or in the planter box
- Can be used to help reduce seed bridging

ACTIVE INGREDIENTS

- | | |
|---|------------------------|
| • Available Phosphate (P ₂ O ₅) 5% | • Manganese (Mn) 3.0% |
| • Iron (Fe) 1.0% | • Molybdenum (Mo) 2.5% |
| | • Zinc (Zn) 10.5% |

GROWER BENEFITS

- Optimizes seed nutrient conditions for plant growth
- Relieves transient nutrient deficiencies associated with cold and wet soils
- Beneficial to soil with low plant-available phosphorus
- Improves singulation with high-end seed lubricant, reducing the number of skips and doubles

RATE

3 oz./unit of seed
